**Home care keeps families together while providing support.**

"My whole family wants to thank you for the compassion you have shown my Mother and Father over the last 2-3 years. You, Gina, and everyone I met from your company played an important role in making the past years of our Dad's life so special. Your service in helping us care for Mom after Dad's passing has been above and beyond" ~Steve, (son) 68

"I am so incredibly awed at our fortune to have you be a part of our family and our lives. You are angels. I can't imagine any better fit than ya'll have been. My dad gets the companionship, care, and it's always the same person" ~Cid, (daughter) 60

"Brian, your passion for your business is inspiring and admirable. I don't know what we would do without you." ~Tom, (client) 85

We were blessed with help and guidance from Amberly which brought us immense relief and comfort. Then we met Jasmine who might have changed my life. Jasmine came in a stranger and within minutes she was family. I don't know how she does it. But when you say it takes a special kind of person to do this type of work - she is that special kind. I cannot stress that enough. If your family is looking for empathy, support, relief, guidance and/or comfort, then reach out to Silver Companions. If Jasmine and Amberly are in any way representative of this entire company, then you have found the help your family is looking for. ~Sarah, (daughter)

"Silver Companions allows me to make my own schedule, on my own time. I don't have to be concerned with the pre-determined schedule established by my [senior living] community. I feel free." ~Jean, (client) 86

"Silver Companions has literally changed our lives. Leslie has been in contact with us weekly asking for feedback and guiding us through one of life's biggest challenges. The level of care and concern provided is nothing short of remarkable. There is no way to put a price on the quality of care this service provides. I know my parents are well cared for. Kudos to Silver Companions for getting it right!" ~Debbie (daughter )

"Thank you for the profession you have chosen. I don't know what I would do without you. You have made things so easy for me to start living again. You are my friend, my confidant, my driver, my caretaker, my reason to get up every day! I don't know what I would do without you." ~Frances, (client) 89
